

BL Ballet Victoria

All over France “*un brin de muguet*” (a Lily of the valley) is offered to honour woman on May 1st. This beautiful and simple gesture announces the arrival of spring, shows love and appreciation for those we care about, and reminds us to remain hopeful.

The Lily of the valley is blooming in a local Victoria garden and has appeared just in time for May 1st. Should we make this flower the symbol for Ballet Victoria's world premiere of *Swan Lake*? Would it not fit the elegance of the ballet's delicate allure? The purity and charm of the flower mirrors the elegance and grace of the swans in this mesmerizing spectacle.
