

BV Ballet Victoria

Beyond the story

From the restrictive confines of the Victorian age, could Mary Shelley have imagined her haunting Frankenstein alive?

Or dancing a wild tango with his wife?

In a world where the surreal reflects deeper truths, Frankenstein's haunting dream of forging life unfolds in a new tale.

What if the Creature that inspires fear and horror escapes the creator's control?

Will the Creature's life be defined by fear?

Or might he be saved by love?

Experience what ballet, music and dance can offer...

"I must confess some scenes brought tears to my eyes..."

"I absolutely want to see the whole performance again"
