The Magic of Costumes

Ballet Victoria is grateful to work with Jane Wood on costuming for all our productions. Jane takes great care in ensuring that the costumes are comfortable and functional for the dancers, as well as adding the enchanting details for bringing the characters to life.

With close to 100 costumes *The Gift of The Nutcracker* has many quick changes behind the scenes that the audience might not know about. The bustle behind the curtains is almost as choreographed as the show itself. Nonetheless it is all part of the holiday magic that we can't wait to share with you!
